Technical support, implementation specialist, Seen as AS/400 expert by/for IBM NZ. Founding secretary of IBM user group, RL club coach, manager and club treasurer. Project Manager, Consultant, Ops manager, IT manager, Development Manager, implementation and support/liaison project coordinator | IBM i, RPG 3 and 4, CL SQL: (Consultancy own payroll package, became NZ payroll for BPCS users, plus various other support and development and 6 years IT and project management). Operating system upgrades, performance tuning for several clients.<br>2 ERP major implementations mostly bespoke but also with various BPCS and JDE World implementations. RPG (all), Facom IBM mainframe (S/360. S370) and midrange systems (S/3, S32, S/34), Assembler, RPG, COBOL, OCL. |

**Strengths: Good analysis and technical skills and knowledge, reliable, takes ownership, attention to detail, good with people, can lead if required.**

**Recent roles: 2015-2017**

Various roles, mostly different types of driving, buses, new vehicles at Port Melbourne plus 3 IT related contracts in 2017. AWH, a few programming changes and new programs to assist hand held device warehouse users with password changing during login. This required knowledge of system values, routing entries, RPG IV, CL and some 2e Cobol knowledge. Temporary until ex-employee returned to AWH. AWH logistics system handles Wool, Cotton and miscellaneous business. I investigated all 120+ outstanding issues and reduced the list to around 90-100, without any programming work. The remaining issues, a few of which I worked on required significant knowledge of the 2e generated, Cobol systems. I was unable to obtain sufficient support to become deeply involved in the application and was replaced by a recently retired employee who had the required system and Cobol knowledge. At the same time, I was acting as a tutor for the ACS and both suffered due to conflicting pressures.

|---------------------|--|--------------|-----------------------------------|----------------------------------|
| Dec 2011 – Dec 2014 |  | Cummins Inc. | IT Leader, Senior Project Analyst | IBM i, Movex ERP, Oracle BI tool |
|---------------------|--|--------------|-----------------------------------|----------------------------------|

**Cummins South Pacific, Melbourne, (redundant)**

**IT Leader SE Asia and Centres of Excellence (Singapore & Houston) – promotion.**

**Responsibilities:**

- Using 6 Sigma, ITPM internal methodology and conventional project management tools, involvement in, coordination and management of mostly offshore projects. The development team, users and other stakeholders, vendors and management were based across multiple organisations, locations and time zones in a complex matrix environment. Several SOE Windows upgrade projects.
- Provide cross functional team leadership, including coordinating IT vendor support for 4 overseas business units using a combination of resources and teams both local and off-shore. Maintained and enhanced key applications and day to day support and administration.
- Set, document and implement IT strategies and initiatives.

**Achievements:**

- Established regional processes for support, and services, resulting in process improvements and a formal approach for users to obtain 2<sup>nd</sup> (off shore vendor) and 3<sup>rd</sup> level (internal) support for application changes and operational problems.

- Led the Asia Pac deployment with BMC Remedy 8.1 (task and incident management) upgrade.
- Coordinated the roll-out of and user education for 500 Windows 8.1 SOE PCs. Separately coordinated the migration of and user training for Lotus Notes to Office 365 locally and remotely.
- Completed 2 EDI implementations, 5 server replacements remotely managing off-shore vendors and coordinating local teams.
- Some RPG IV and SNA inter system work included to assist remote technical services and to solve urgent warranty system issues.

#### **Community Activities:**

- Managed (Cummins) Community Involvement Team Project for Riding for the disabled, a replacement wheelchair lift for mounting platform. Resource procurement, task organisation including installation, safety inspection and WorkSafe registration, entire project completed in 18 days for visit by US CIT leaders to Harkaway, Victoria. Other RDA and special needs school voluntary contributions.
- Lions International V2 district and PMI Melbourne web site coordinator roles.

#### **Senior Project Analyst – original role.**

##### **Responsibilities:**

- The provision of Project Management services with the added ability to provide technical analysis and solutions as required. Mostly to supplement or stand in for existing technical staff.
- As an IBM i Technical SME, provide clear guidance with development planning for efficiency.
- Undertake the Project Management component, operating within the IBM i Movex and Oracle environments for a Supply Chain Management (SCM) BI tool development and implementation.  
Coordinate multinational deployments to China, Korea, Japan and Singapore.
- Plan and implement several upgrades and incident recoveries. Stand in roles due to resource availability.

##### **Achievements:**

- Successfully planned and coordinated IBM i V5R4 to V7R1 and server upgrades, job scheduler performance throughput improvements, for Australia and Singapore.
- Successfully implemented SCM projects in China through too go-live, remaining site installed without go-live. Remote vendor management of development team in India.
- Provided leadership for post go-live support group based in Europe, India and Argentina.

|                |               |                                                                                      |                                                                                                             |
|----------------|---------------|--------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|
| 2010-11 Sydney | Retalix (USA) | Project Support Analyst and Development Specialist. Technical specialist consultant. | IBM i, ERP and SCM implementation for Metcash IGA etc. RPG ILE, SQL, CL Complex environment and interfaces. |
|----------------|---------------|--------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------|

**Responsibilities:**

US developed software is continuously transferred to local systems and environments. The role involved support, diagnoses and correction (or refer back) issues occurring regularly. Support and correction of issues discovered in the production system are the major priorities, however, with several development tasks being pursued concurrently, providing support to Metcash IT department for their testing, implementations etc., and an often very demanding requirement. Retalix local support is a team 3 to 4, Metcash IT (50+ of possibly 200) needing some assistance on occasion. Role required extended hours daily plus some on-call. RPG ILE, iOS, database and multi-system environment skills.

**Achievements:**

- Multiple concurrent projects leading to 2 major implementations, recently Agile focussed.
- Technical analysis and development of specifications, user documentation and testing/training aids.
- Responsible for application support of national system, problem resolution, program diagnosis and corrections across most of the (very large and complex) application.
- Support of client’s project, product and technical analysts (20-30) for development, support, training, environments and integration teams.
- Local support for US based developers, local BAs and visiting consultants of Retalix.

|-----------------------|---------------|---------------------------------------------|--------------------------------------------------------|
| 2008-10 Wellington NZ | Self employed | Project Manager, Release Manager, developer | IBM i, RPG, CL, plus ‘non-technical’ management skills |
|-----------------------|---------------|---------------------------------------------|--------------------------------------------------------|

- Programme and project management for NZCS ITCP certification scheme from research to announcement, including nationwide consultations with stakeholders and interested parties. Design of processes for national system, organised and delivered national workshops, consulted with membership, several universities and several government departments.
- IBM i software release process modernisation from development to implementation for HP-EDS major client, Telecom NZ. Supervised change control, release administration and regression testing (see above). Most progress made in that functional area for many years.
- Practical involvement in smart ticketing system (GPS controlled) for NZ Bus, Hutt Valley.

|----------------------------------------|--------------------|-------------------------------------------|----------------------------------------------------------------|
| 2003-08 Auckland, Sydney and Melbourne | Part self employed | Business analyst, test analyst, developer | IBM i, RPG, CL, Synon 2e, plus document distribution solutions |
|----------------------------------------|--------------------|-------------------------------------------|----------------------------------------------------------------|

- Banking solution development using Synon 2e and RPG. Testing java and RPG interfaces, iOS upgrade, and package implementations throughout NZ and for St George Bank, for Finzsoft.
- Design and testing of mortgage and equipment leasing solutions (Synon 2e and RPG) for GE Money (Wizard/AFIG) IBM i systems. Provided requirements/solution analysis including both functional and non-functional requirements, stakeholder management,
- Other implementation roles around Australia.
- Vehicle securities system document email/fax development for ED's client, Vic Roads. Synon 2e, RPG and Wilkinson Forms solution.
- BPCS B2B/EDI interface development for NHP in Melbourne. IBM i, RPG etc.
- Numerous additions and changes, new development and operational automation for Australian Wool Handlers, Synon 2e and COBOL, plus scripting for web service and CreateForms forms handling solution, investigation of PHP and other technologies.
